**Abbey Gardens** is a charitable organization focused on the remediation of a decommissioned gravel pit into a green space that provides economic and recreational opportunities for our community. Our vision is to inspire a healthy community and create opportunities to learn about living sustainably. The 380-acre site is developing incrementally towards becoming a demonstration and education site on local food, gardening, sustainable living, biodiversity, and ecology. In addition to helping nature reclaim the land, the Abbey Gardens team is dedicated to demonstrating innovative and replicable solutions and practices that will inspire generations of good stewards for our earth and people. Our project offers tremendous opportunity for learning and experimentation as well as project management.

**Seasonal Programming Assistants** are an integral part of the Abbey Gardens team and will support spring and summer programming as well as the maintenance of programming areas. We are looking for 2-3 versatile and enthusiastic individuals who can work independently while making a positive contribution in a team environment. Responsibilities involve program design and development, implementation, facilitation, and evaluation with the support of experienced outdoor educators. Abbey Gardens hosts programming for children, adults, special groups, and tourists where educational opportunities may be formal or informal. **Seasonal Programming Assistants** will have the benefit of working on a variety of programs at all stages of development.
